PLAN, DESIGN, CREATE, PRESENT

About the EducateHacks Organization

EducateHacks is a student-run organization focused on creating hackathons that promote the importance of education and learning. Founded by a group of high school students with a passion for education technology and a desire to make a positive impact in their community, EducateHacks has grown into a thriving organization that hosts hackathons for students & professionals of all ages.

About EducateHacks 2023 Hackathon

EducateHacks is a hackathon that is focused on promoting the importance of education and learning. The event brings together a diverse group of students from across the world to work on projects that address real-world educational challenges and opportunities. Last year's EducateHacks was a huge success, in large part due to the presence of high-profile speakers like Damian Musk, Shefik Macauley, and Tom-Preston Werner. These individuals brought a wealth of knowledge and expertise to the event, and their talks and workshops were highly engaging and inspiring for attendees. In addition to the speaker sessions, EducateHacks also featured a variety of interactive and engaging activities, including hackathon projects, workshops, and networking opportunities. These activities allowed attendees to learn new skills, collaborate with their peers, and develop innovative solutions to educational challenges. Overall, EducateHacks was a dynamic and engaging event that was well-received by attendees and organizers alike. We are excited to build on the success of last year's event and to continue promoting the importance of education and learning through future EducateHacks hackathons.

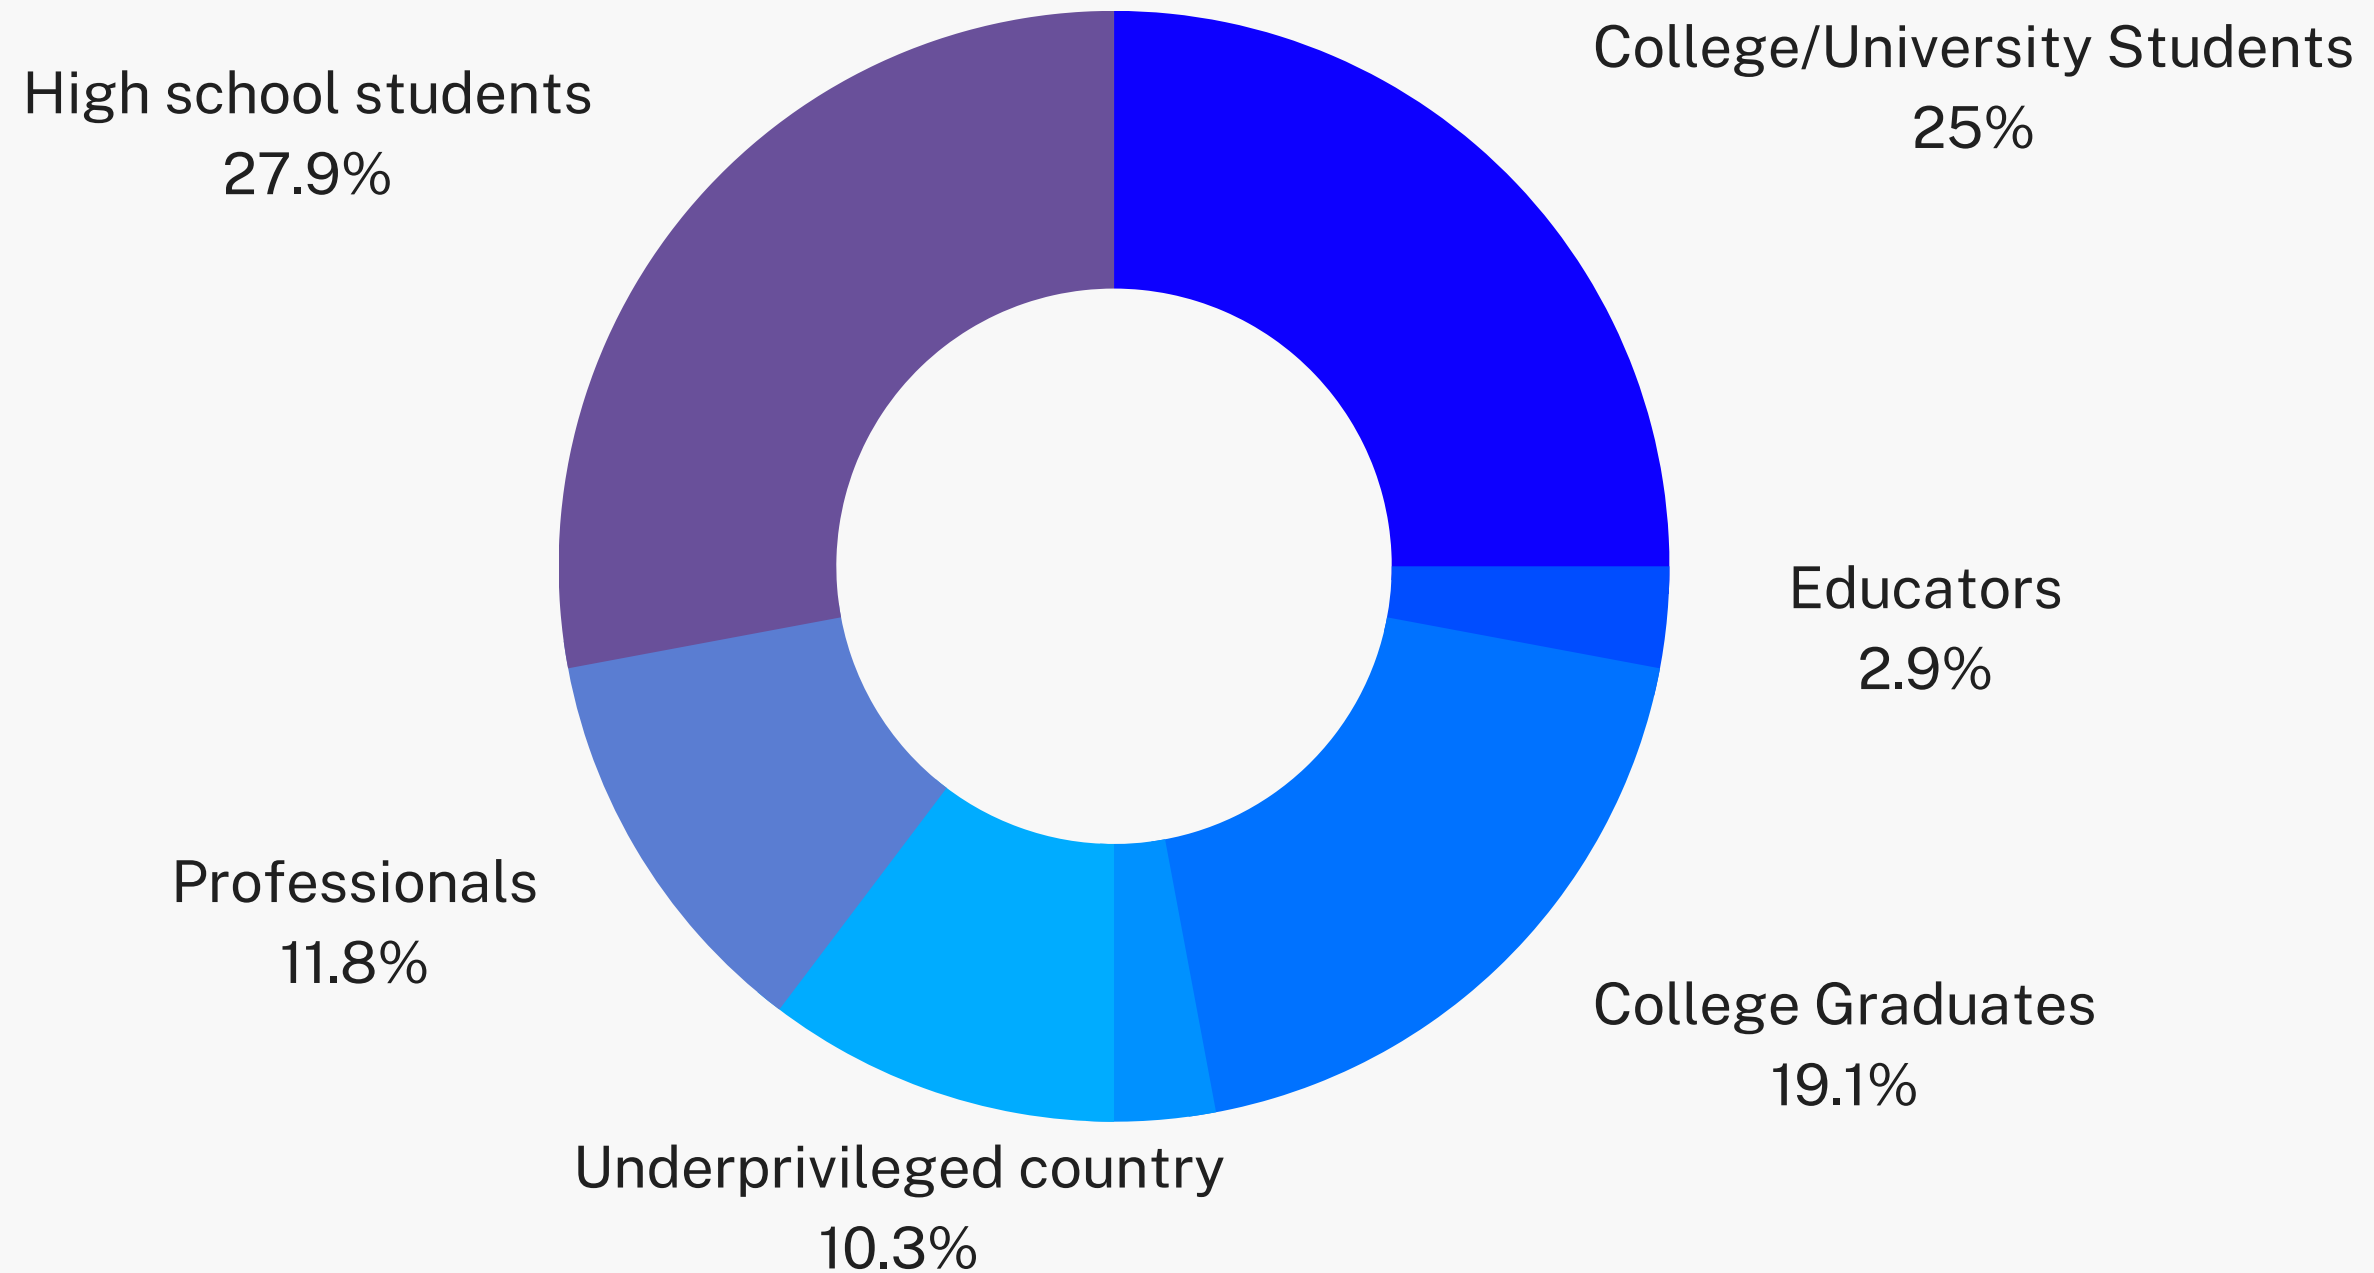

Event goals

One of the key goals of EducateHacks 2023 is to inspire and motivate attendees to see the value and importance of education, and to encourage them to continue learning and growing throughout their lives. To achieve this goal, the organizers of EducateHacks 2023 have planned a variety of interactive and engaging activities, including workshops, talks with guest speakers, and hackathon projects that focus on educational challenges and opportunities.

In addition to promoting education and learning, EducateHacks 2023 is also committed to fostering a culture of innovation and creativity. The organizers have encouraged attendees to think creatively and come up with innovative solutions to educational challenges, and have provided resources and support to help them turn their ideas into reality.

Our target participants

Creative, innovative thinkers from a range of backgrounds & industries have attended this event in the past and such diversity is to be expected once again in our upcoming event

This data is based off data gathered from last year's hackathon as well as our marketing plan

EducateHacks is an all gender inclusive, all race inclusive event with a diverse judging panel and diverse set of planned guest speakers.

BENEFITS OF SPONSORING

Just a few of our many benefits...

Sponsoring EducateHacks is a great way to attract interest and showcase your company's commitment to innovation and education. As a sponsor, you will have the opportunity to engage with a talented and motivated group of students who are eager to come up with innovative solutions to real-world challenges.

In addition to the opportunity to engage with a highly engaged and interested audience, sponsoring EducateHacks also offers a number of other benefits. These may include logo placement on event materials, mentions in event promotions, and the opportunity to participate in sponsored workshops or demo booths.

Overall, sponsoring EducateHacks is a valuable investment in the future of innovation and education, and offers a unique opportunity for your company to support and engage with the next generation of innovators. So, it is a great way to attract interest in your company.
